## REFERENCE FOR FOX MAINTENANCE

Fox Maintenance completed a variety of works to our offices to include carpentry, plastering, electrical, plumbing, iron work, roofing and decorating.

When first introduced to Richard Fox and his various highly skilled craftsmen, I was thoroughly impressed with the exacting standards of work and the feeling that we were being looked after. The work had to be completed in an emergency. Richard arranged for the work, where possible, to be conducted out of office hours to avoid disruption to the business. Any work which had to be performed during business hours was done with the utmost respect for our staff and clients. Richard was true to his word throughout on cost, timing and performance. He was able to put his considerable experience and expertise to use by offering his wisdom and advice throughout the project.

I would not hesitate to recommend Fox Maintenance who have completely restored our faith in the building trade. Good old fashioned high standards, honesty, reliability and a wide range of skilled craftsmen all make for a building company of rare excellence.

Highly recommended.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Alison M White".
